

# SAI Timetable Gen

## Documentation

1. [Download Schedule](#)
2. [Request for change](#)
3. [Change Password](#)

## Login

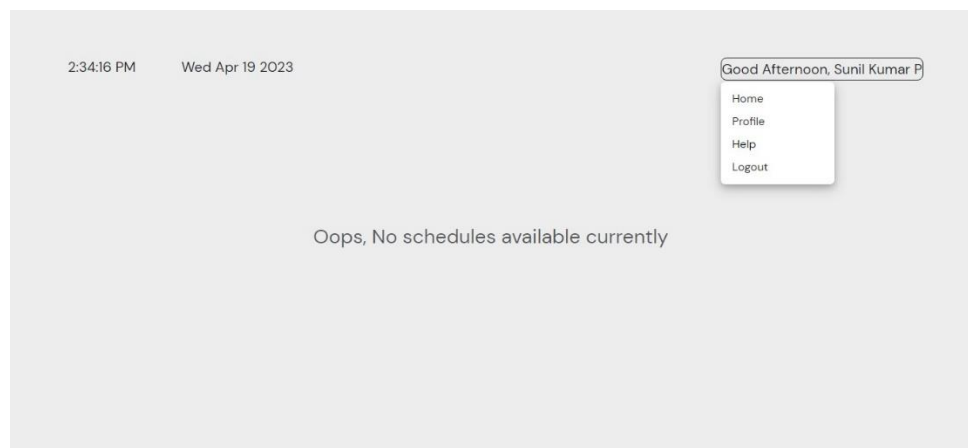

When the Web Application is launched, the user will land on the Home page where he/she can then Login.

## Main Page

As a Teacher, you have the right to ask for a change in the allotted schedule if needed but more on that later. The greeting on the top right of the screen is a hidden button which on being clicked will show a few more actions you can perform.

When you do not have any schedules allotted to you, the above displayed message will be visible.

## Download Schedule

When you do have a schedule allotted to you, it will appear in the Main Page. The “Download” button when clicked will let you to either download your schedule as a PDF or to print it on paper.

2:38:30 PM

Wed Apr 19 2023

Good Afternoon, Sunil Kumar P

#	1	2	3	4	5	6

Request Change

The screenshot shows a web application interface. On the left, there is a sidebar with a clock showing 2:38:44 PM and a list of days from Monday to Saturday. The main area displays a table with the same schedule data as the first image. On the right, a print dialog is open, showing options for Destination (Save as PDF), Pages (All), and Layout (Landscape). There are 'Save' and 'Cancel' buttons at the bottom of the dialog.

## Request for Change

As mentioned earlier, you can also request for changes to be made (if any) in the schedule allotted to you. The action of the button “Request Change” should be self-explanatory in this context.

Upon being clicked, it opens a dialog box for you to type out the required changes and once done, click on submit and an Email will be sent to the Admin automatically regarding the request.

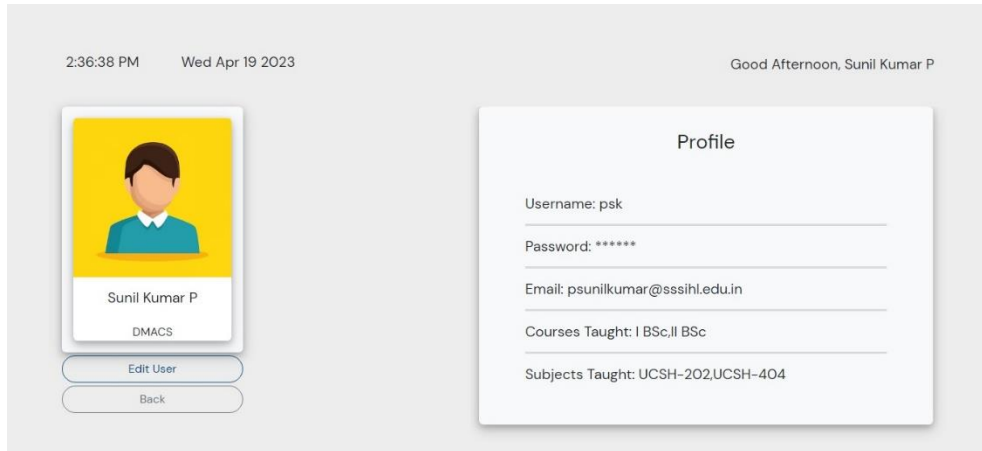

## Change Password

Security is very important, so to avoid any safety risks, you have the option to change your default password “sairam” to anything you want.

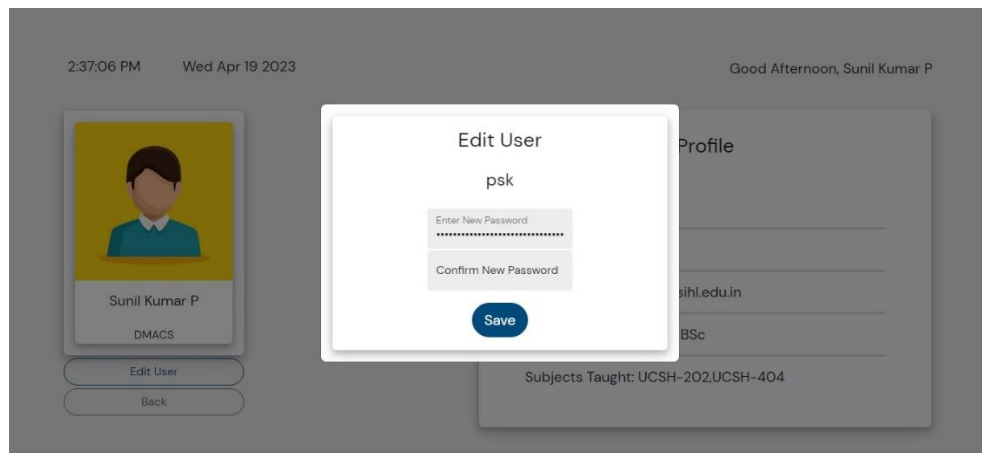

How to do that? The [Hidden Button](#) should help you out.

Click on the Profile button to land in your profile page. There you can see your user details such as your Name, Username, Email, Department, Courses Taught and Subjects Taught by you.

Click on Edit User to change your password. The button will spawn a small pop-up form to accommodate changing your password. It's that easy.

That wraps up all the tasks you as a teacher can perform in this application. Do enjoy using it!!

JAI SAIRAM
